

Schedule BSS Premaster 2017-2018

Nature of the Premaster

The complete program is online (including exams). Grades for partial (midterm) exams can be part of the final score for the test. The program is scheduled in the first semester (week 36 2017 to week 4 2018), according to the schedule. Students can have access to materials before, although without supervision.

Communication and supervision

The main course materials are the digital lectures and the books. The lectures are accessible in the Digital Learning Environment (DLO). Lecturers can provide additional teaching materials or assignments. The lecturer communicates on this using the DLO. We expect students will use the digital Student Community on the DLO (Forum). They can start discussions on the content of the courses or pose questions. The lecturer will monitor this discussion and will interfere on a weekly basis, only during the course as scheduled.

Lecturers

Statistics 1: Don van Ravenzwaaij

Statistics 2: Casper Albers

Statistics 3 Jorge Tendeiro

Research Methods: Tassos Sarampalis

Test Theory: Rob Meijer

Research Practical: Jorien Vugteveen

Qualitative Research Methodology: Ning Ding

Exams

Exams can be Multiple Choice tests or written reports. In case of Multiple Choice Tests the test will be available only within a certain time frame and will normally have a time lock. This means that the test has to be completed within a fixed time frame (mostly two hours), after starting it.

Schedule

Week	Statistics 1	Statistics 2	Statistics 3	Research Methods	Test Theory	Research Practical	Qualitative Research Methodology
36	X						
37	X						
38	X						
39	X						
40	X
